4. Scoring

4.1. Ranking list

The Swiss Skate Tour compiles the ranking list after each race. The ranking list is available at https://my.raceresult.com. Due to the objection period, the definitive ranking list is not updated until the following day.

4.2. Points distribution

Points can be collected for the overall ranking at each race of the Swiss Skate Tour. The winner of a race and each category receives 1,000 points. The following skaters in each category receive points according to the following table. An exception applies to the WIC Bern, where the number of points is multiplied by 1.2. This is due to the very strong international field of participants. No points are awarded in the Fun&Family category. These are listed alphabetically in the ranking list with their running time.

Points per race	
Rank	Points
1	1000
2	980
3	970
4	960
5	950
6	940
Ongoing / from rank 50 only one point is deducted per rank	

4.3. Overall ranking

After each race, the points of the respective athletes from the Swiss Skate Tour ranking list are added up. All Swiss Skate Tour races count towards the overall individual ranking. The 4 best races are included in the overall ranking. For the rollerski category, the points of the events in which the category is offered count. There are the following overall rankings, which are compiled immediately after the last race

Speed Men	Women	
Fitness Men	Women	
Junioren	Boys	Girls
Kids	Boys	Girls
Minis	Boy	Girls
Rollski	Men	Women
Club ranking	All points of the respective club/team are added up.	

If two or more athletes have the same number of points, the result of the last race counts.
